

Side Event

Harnessing Domestic Resources: How partner countries can benefit from the Addis Tax Initiative

Monday, 18 July 2016

6:15 p.m. – 7:30 p.m.

Conference Room 5, United Nations Conference Building
New York

The side event will mark the first anniversary since the launch of the Addis Tax Initiative, celebrating last year's achievements in terms of support generated for domestic resource mobilisation, partner countries' commitments and the establishment of an ATI governance structure and monitoring framework. Still, challenges remain for the ATI to enlarge its membership and to be truly of service to all the partner countries. Therefore, the side event will not only provide the opportunity to welcome the new members that have joined the Addis Tax Initiative after its launch last year, but also to discuss – in a panel and with the plenary - the needs of partner countries in the area of domestic resource mobilisation and the role of technical assistance in that matter.

We cordially invite you to join our discussion!*
