

ATI & OECD FTA Workshop Series: Using the FTA Digital Transformation Maturity Model (DTMM) in a strategic context

October 2022 - March 2022 | English (FR)

The ATI Consultative Group 1 is delighted to invite you to join the workshop series related to the topic of digitalisation of revenue administrations.

Objectives

As a follow-up of the [webinar on the FTA Digital Transformation Maturity Model \(DTMM\)](#) held in March 2022, in which the OECD's Forum on Tax Administration (FTA) presented the DTMM, with some practical insights on its application from the Armenian revenue administration, the Secretariats of the Addis Tax Initiative (ATI) and the FTA are organising a virtual workshop series for revenue administrations from ATI partner countries that confirmed their interest in implementing the DTMM.

The aim of the workshop series is to **support revenue administrations in their process of digitalisation and digital transformation** by encouraging and enabling them to use the DTMM for self-assessment, as this may give them a better understanding of their digital maturity and support them in shaping their strategy for digitalisation and digital transformation.

This workshop series is also the result of the discussions held during the first webinar, in which ATI partner country representatives highlighted their interest in this topic, while sharing that one of the main challenges connected to the digitalisation path of revenue administrations is the need to develop a digital strategy that builds upon a network of government institutions. The workshops also build on the ATI Commitment 1, which seeks to “improve the efficiency of revenue administration [...] in partner countries through further modernisation (e.g. digitalisation) and broader institutional change.”

Programme

Workshop 1: Preparing revenue administrations for DTMM-based self-assessment

When: 26 October 2022

Workshop 2: Exchanging experiences from DTMM-based self-assessment process

When: 27 March 2023 | 15:00 to 17:00 (CEST)

Workshop 3: Using the results of DTMM-based self-assessment to shape the digitalisation and digital transformation strategy

Agenda

Time	Agenda item	Responsibility
15:00 – 15:05	Welcome remarks	ATI Secretariat
15:05 – 15:35	Tour de table based on questions sent out beforehand (5min per country)	WATAF
15:35 – 15:55	FTA Presentation: How can we use the DTMM self-assessment results?	FTA Secretariat
15:55 – 16:05	Kenya Revenue Authority (KRA) presentation: How KRA has approach digital strategy development	Kenya
16:05 – 16:30	Discussion covering intro questions and presentations	WATAF
16:30 – 16:55	Next steps including opportunities for further assistance - Presentation: Tax Inspectors Without Borders (TIWB) and TIWB digitalisation of tax administration (TIWB-DTA) (10min) - Presentation: ATI Matchmaking Platform (including experiences from Sweden and Sierra Leone) (15 min)	TIWB Secretariat ATI Secretariat, Sweden & Sierra Leone
16:55 – 17:00	Closing remarks	ATI Secretariat

The ATI/OECD FTA workshop series will be conducted virtually on the Zoom platform, with simultaneous interpretation into French, whereby the ATI Secretariat will share the respective link to enter the virtual room. Participation is by invitation only.
