

Swedish Tax Agency

ATI General Assembly
Lusaka 21 June 2023

Our mission

- Contribute to a well-functioning society and help to finance the public sector
- Perform tasks in a legally correct, cost-effective and straightforward way, and prevent and combat crime
- Build trust in the Swedish Tax Agency among individuals and companies
- Make sure that everyone who comes into contact with us has the same opportunities and terms

Our main activities

- Determine and collect taxes
- Manage population registration
- Manage the marriage register
- Administer property taxation
- Register estate inventories
- Issue ID cards for individuals registered in Sweden
- Prevent and investigate tax offences
- Serve as guarantor to the state

The Swedish Population Register

A unified register that reflects the population, including information regarding:

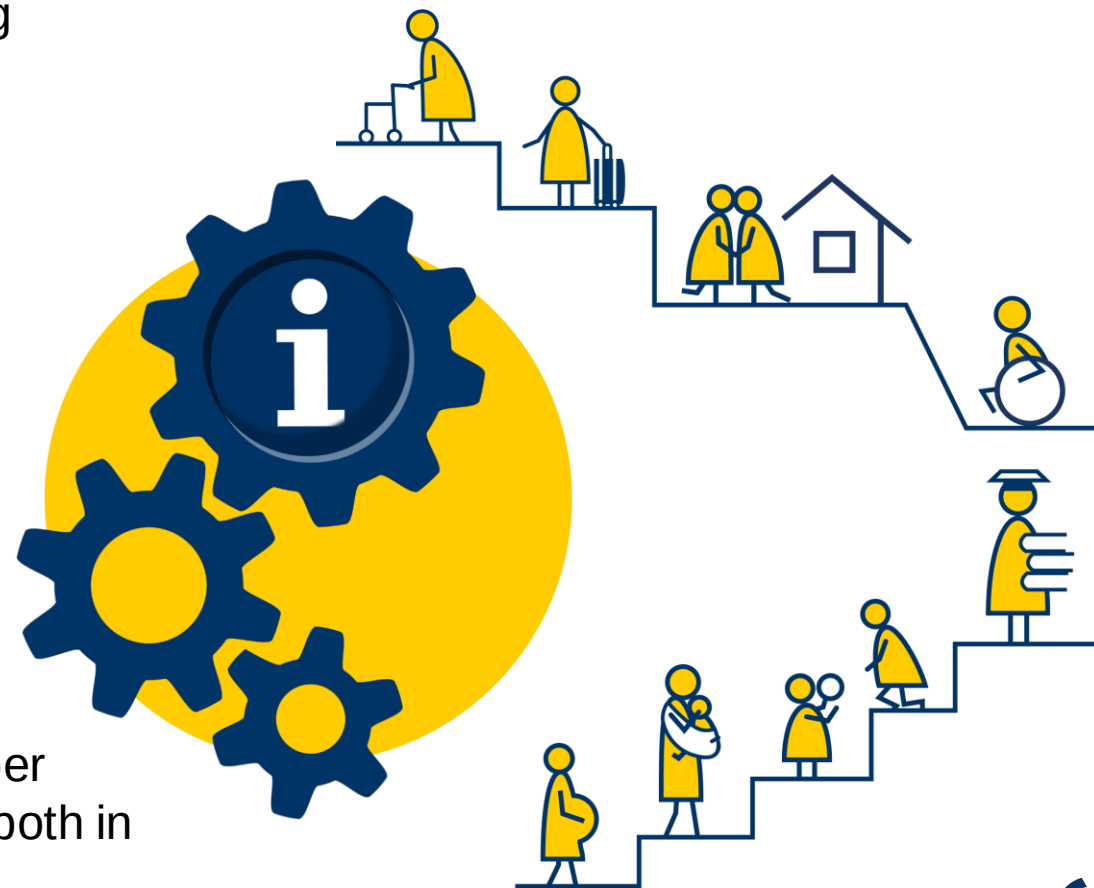

- identity
- residence
- family relationships as regulated by family law

It is based on

- trust and the will to do the right thing
- participation and collaboration
- checks and controls

Personal Identity number

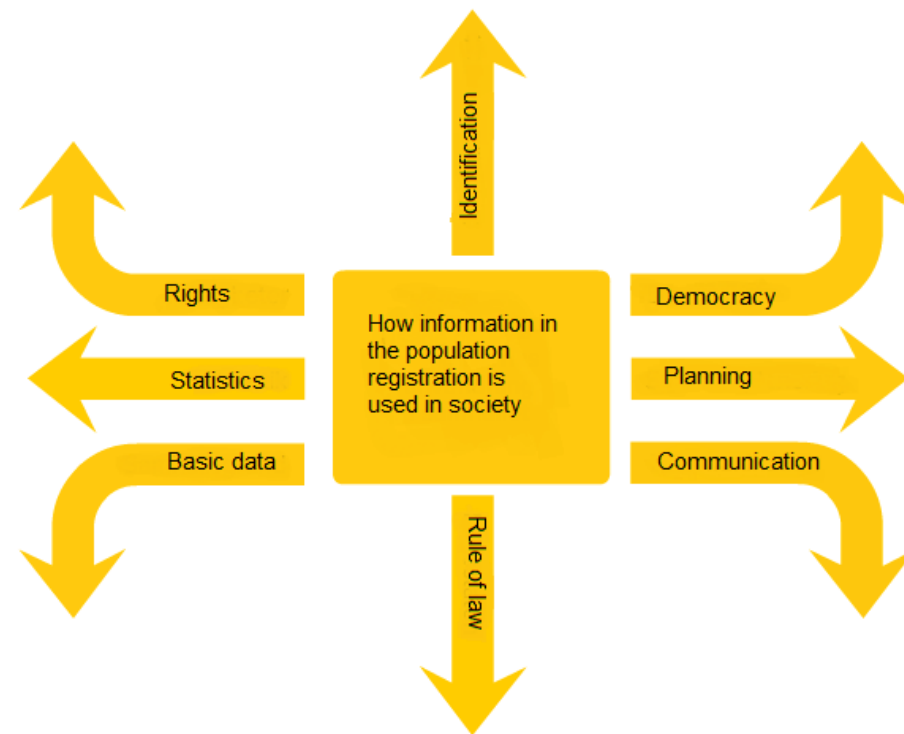

- Every person has a unique identification number
- The number is used for identification purpose both in public and private sector
- Identification through id-cards, passport, e-identification

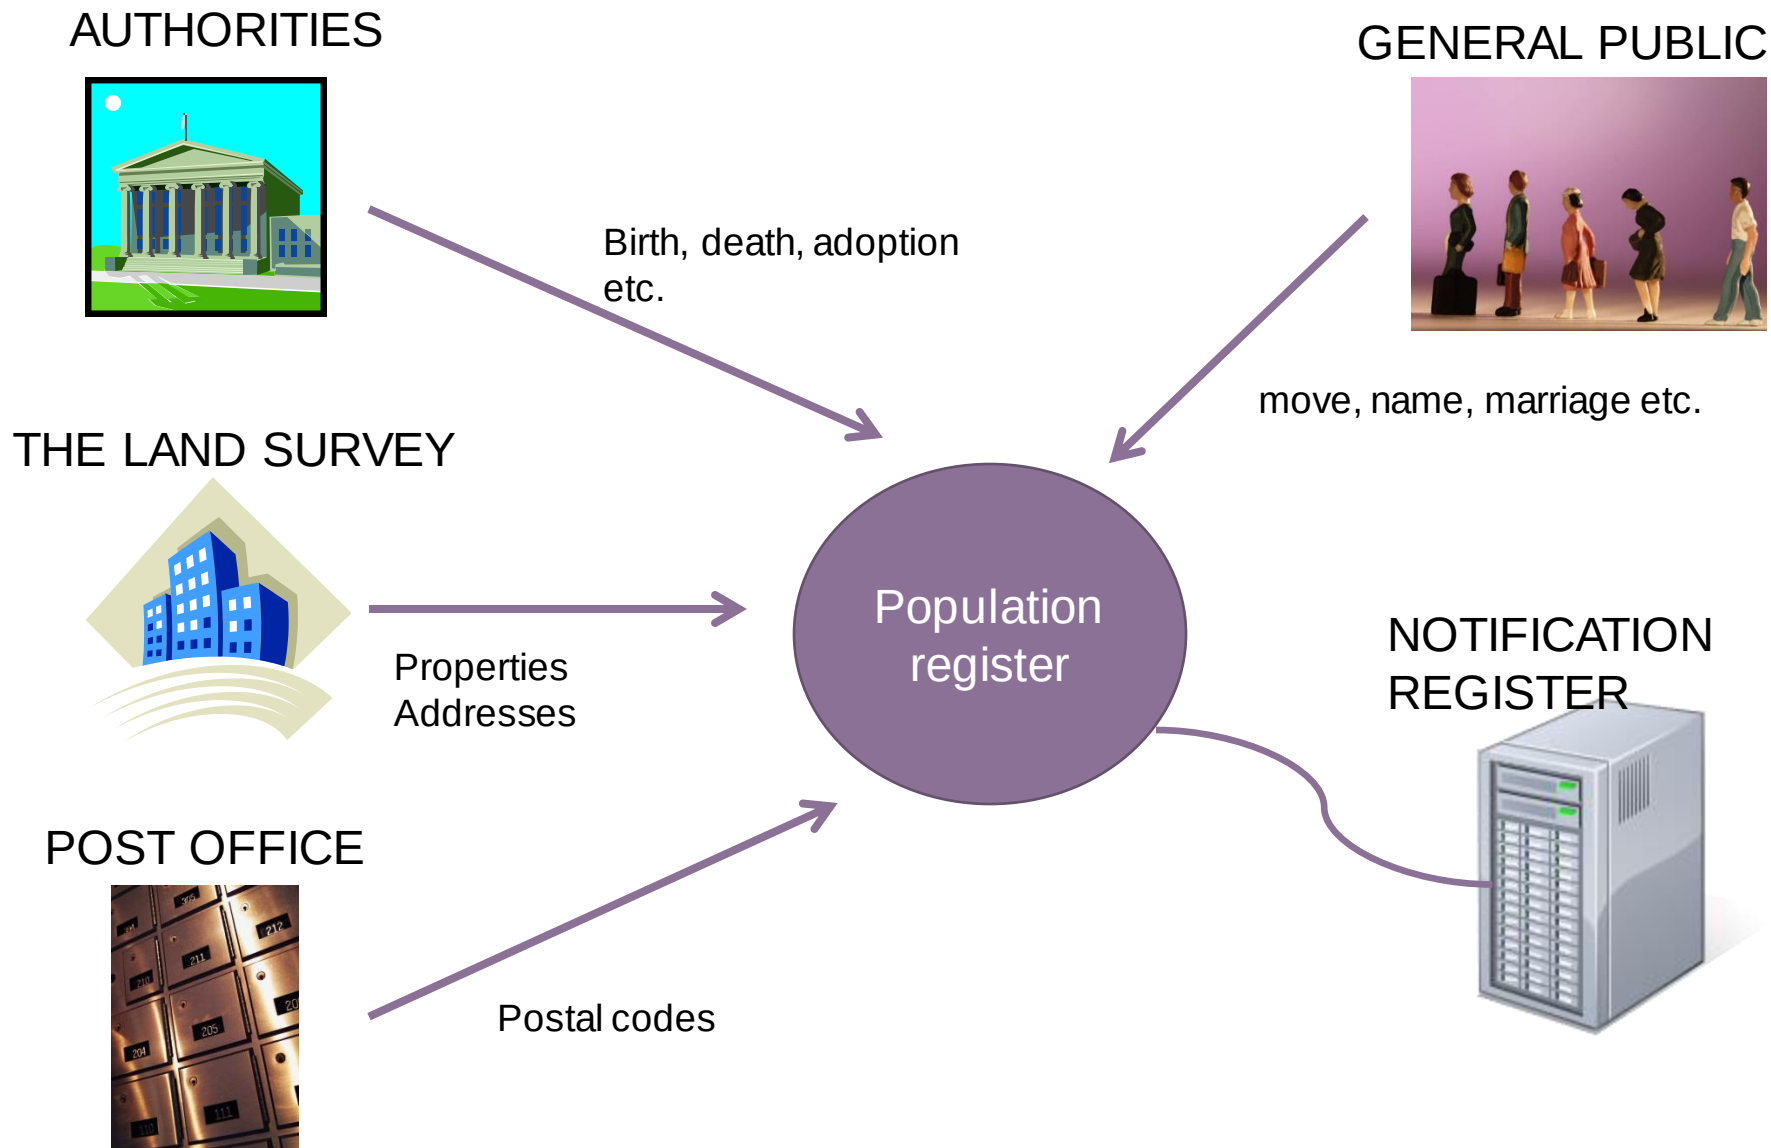

The purpose of the Swedish Population Register

To ensure that societal functions have accurate information on which to base decisions and measures

- community planning
- population statistics and research
- welfare system payments
- taxation
